Wuhan Iron & Steel Co. Ltd. awards Order for Installation of a Thin Plate Quench to Tenova LOI Thermprocess

Essen, August 30th, 2021 - Tenova LOI Thermprocess, a leading global company in the field of heat treatment plants, has received another order from **Wuhan Iron & Steel Co. Ltd.** (WISCO) for the installation of a **continuous quench for efficient cooling of thin steel plates**.

The Tenova LOI Thermprocess quench is specially designed for efficient cooling of thin and very thin plates of high strength and wear resistant material. The quenches adopted for this application ensure maximum hardness and outstanding flatness combined with unique and powerful models and overall automation.

For Tenova LOI Thermprocess it is the fourth order from Wuhan Iron & Steel in the field of plate heat treatment. This further contract points out the successful, long-term cooperation of the two companies for this business, which already started in 1994, and confirms the customer trust in Tenova's strong competence for the field of plate heat treatment.

In addition to the previously installed equipment for treating medium and thick plates, the new quench extends WISCO's capabilities for thin plate heat treatment.

About LOI Thermprocess GmbH

Tenova LOI Thermprocess GmbH is one of the leading companies in supplying industrial furnace systems for the heat treatment of metals. Worldwide clients from the steel, aluminum and automotive industries rely on the experience and technical solution competence of the traditional company representing the entire know-how in the field of material properties and secondary metallurgy. Tenova LOI Thermprocess is a trademark of Tenova, a Techint Group company. www.loi.tenova.com

About Tenova

Tenova, a Techint Group company, is a worldwide partner for sustainable, innovative and reliable solutions in the metals and – through the well-known TAKRAF and DELKOR brands – in the mining industries. Tenova leverages a workforce of over 2,300 forward-thinking professionals located in 19 countries across 5 continents, who design technologies and develop services that help companies reduce costs, save energy, limit environmental impact and improve working conditions.
